

# A Day At The Zoo

*Read the story and then fill in the table below to put the events in order.*

Amy and her dad went to the zoo on Saturday. The first animal they saw was a tall giraffe. Amy was amazed at how long its neck was. They took a picture with the giraffe in the background.

Next, they went to see the monkeys. The monkeys were playing and swinging from trees. Amy laughed as one monkey made funny faces at her.

Then, they had lunch near the lion's den. While eating sandwiches, they watched the lions resting in the sun. Amy thought the lions looked very majestic.

Finally, before leaving the zoo, they visited the aquarium. Amy loved watching the colorful fish swim. Her favorite was the bright blue fish that followed her as she moved.

Put these events in order by writing 1,2,3, or 4.	(1, 2, 3, 4)
They had lunch near the lion's den.	
Amy and her dad saw a tall giraffe first.	
They visited the aquarium.	
They saw monkeys playing and swinging.
