BATTLESHIPS GAME

Write **10 items of clothing** in the grid below. These are your '**Battleships**'.
Don't show your grid to the other team.

The aim of the game is to find the other team's Battleships by calling out grid coordinates (e.g. **C 3**).

If you find a Battleship, the other team must make a sentence using the word in that area.
 The first team to find all 10 battleships is the winner.
